Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Atlas and Epitome of Operative Surgery Dr. Zuckerkindl requires no introduction to English-speaking readers. In this Atlas he has laid down the rules and methods of surgical procedure with the clearness that springs from definite knowledge and the emphasis that is born of conviction. He describes lucidly and tersely the operations of modern surgery, and in a manner that fits the book to be a guide to the surgeon who operates upon the living or to the student who works upon the cadaver, the verbal descriptions being reinforced and illuminated by a large number of excellent original cuts. The aim of the translator has been to portray the spirit rather than the exact words of the author. In a very few places the editor has added notes that are explanatory in their nature, and are not to be considered as portions of the text. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
