But when she opens her eyes, she discovers her entire world has been altered—her house is abandoned and broken, and the entire neighborhood is barren and dead. Even stranger is the tattoo on her right wrist—a black oval with five marks on either side—that she doesn't remember getting but somehow knows she must cover at any cost. And she's right. Only the solution was deadlier than the original problem—the vaccination turned people into ferocious, deadly beasts who were branded as a warning to unvaccinated survivors. Key people needed to rebuild society are protected from disease and beasts inside a fortress-like wall. But Fiona has awakened branded, alone—and on the wrong side of the wall . . . Complete guide! Its such a great study. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.
