## Who Wrote the Book of Life?: A History of the Genetic Code

By Lily E. Kay

Stanford University Press. Paperback. Book Condition: new. BRAND NEW, Who Wrote the Book of Life?: A History of the Genetic Code, Lily E. Kay, This is a detailed history of one of the most important and dramatic episodes in modern science, recounted from the novel vantage point of the dawn of the information age and its impact on representations of nature, heredity, and society. Drawing on archives, published sources, and interviews, the author situates work on the genetic code (1953-70) within the history of life science, the rise of communication technosciences (cybernetics, information theory, and computers), the intersection of molecular biology with cryptanalysis and linguistics, and the social history of postwar Europe and the United States. Kay draws out the historical specificity in the process by which the central biological problem of DNA-based protein synthesis came to be metaphorically represented as an information code and a writing technology - and consequently as a "book of life." This molecular writing and reading is part of the cultural production of the Nuclear Age, its power amplified by the centuries-old theistic resonance of the "book of life" metaphor. Yet, as the author points out, these are just metaphors: analogies, not ontologies. Necessary and...
