

Proof Analysis: A Contribution to Hilbert's Last Problem (Paperback)

By Professor Sara Negri, Jan Von Plato

CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 2014.
 Paperback. Book Condition: New. Reprint. 242 x 168 mm.
 Language: English . Brand New Book ***** Print on Demand *****. This book continues from where the authors previous book, Structural Proof Theory, ended. It presents an extension of the methods of analysis of proofs in pure logic to elementary axiomatic systems and to what is known as philosophical logic. A self-contained brief introduction to the proof theory of pure logic is included that serves both the mathematically and philosophically oriented reader. The method is built up gradually, with examples drawn from theories of order, lattice theory and elementary geometry. The aim is, in each of the examples, to help the reader grasp the combinatorial behaviour of an axiom system, which typically leads to decidability results. The last part presents, as an application and extension of all that precedes it, a proof-theoretical approach to the Kripke semantics of modal and related logics, with a great number of new results, providing essential reading for mathematical and philosophical logicians.

Reviews

This composed publication is fantastic. I was able to comprehend everything using this composed e book. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Miss Ova Kuhn IV**

This is basically the very best publication i actually have go through until now. It really is loaded with knowledge and wisdom I realized this publication from my i and dad encouraged this publication to discover.
