

Sellout: The Giveaway of Canada's Energy Resource,s

Filesize: 2 MB

Reviews

It becomes an amazing book which i actually have at any time study. It is actually loaded with wisdom and knowledge You wont sense monotony at at any time of your respective time (that's what catalogues are for regarding should you request me).

(Rosina Schowalter V)

SELLOUT: THE GIVEAWAY OF CANADA'S ENERGY RESOURCE,S

Hurtig Publishers,, Edmonton, AB, 1973. Soft Cover/Good/Minor Shelfwea. Book Condition: Very Good/No Marks. 1st Edition Softcover, This is a Good Copy, aside from a tad of shelf wear and a faint bit of fading on the spine--Oh, an a former owner's name stamp on the half-title page, this copy is in very good condition. Much has changed in terms of Canadian resources to-day since Sykes wrote this book. Yet the resource issue still remains because, for Canadians, it is now global--coal to China, logs to China, oil and natural gas to the United States and probably China, water (?) to the United States and so forth. This little volume would have been written about the same even after the NAFTAgreement because resources are still Canada's major export. This volume is a bit of a nationalist rant but the same rant probably could be written were Sykes to apply the same premises to-day.
